

Consumer Information

Federal regulations require that institutions that receive Title IV Funding provide specific consumer information about the school to prospective and currently enrolled students, and in some cases, employees. Listed below is the information that North Central State College is required to disclose and the links, brochures, catalogs and/or handbooks where this information is can be found.

North Central State College is committed to providing an environment that emphasizes the dignity and worth of every member of its community and is free from harassment and discrimination based upon race, color, religion, national origin, creed, service in the uniformed services (as defined in state and federal law), veteran status, sex, age, political ideas, marital or family status, pregnancy, physical or mental disability, genetic information, gender identity, gender expression, or sexual orientation. Such an environment is necessary to a healthy learning, working, and living atmosphere because discrimination and harassment undermine human dignity and the positive connection among all people at the College.
