

Position Announcement

Workforce Machinist Lab Instructor

Beginning in May, the North Central State College Workforce Department will begin a long term training for a local manufacturer in Mansfield, Ohio. The training is expected to be for 12-weeks, 2 times per week, and will be conducted at the Kehoe Center in Shelby, Ohio. This training opportunity is planned to be a recurring event and the successful candidate may have opportunities for additional assignments outside of the requested opportunity.

The College is in need of a skilled machinist for development of instruction and to conduct customized labs.

Essential responsibilities:

- Developing and facilitating competency based labs and learning experiences
- Instruction and application of machinist skills such as:
 - Drills
 - Lathe Turning Machines
 - Milling Machines
 - Universal Grinders
 - Heat Treatment and Materials Overview
 - Quality Inspection Practices
 - General Machinery Inspection and Repair
- Maintaining understanding of the lab equipment, how to use in meeting customized training objectives and how to show others how to use and maintain the learning equipment
- Assisting with monitoring progress of each student throughout the program
- Documenting student progress

Qualifications:

- 10+ years in machining/tool and die/CNC
