The pieces of our puzzle are coming together!

This issue of NC Statement captures the Performance Awards presented at the holiday gathering at the Kehoe Center on December 2nd. The theme for the event was that each of us is like a piece in a puzzle, we all have a role to play in our finished product. Close to 135 employees and guests celebrated the holidays by sharing a wonderful meal together. I want to thank everyone who was able to attend, and if you were not able to join us, I want to extend my thanks for all of the contributions you make to North Central State College and the students that we serve each year.

2017 was both a challenging and rewarding year for North Central State College. As we look forward to 2018, I know we will continue to provide the quality of education for which NC State has become known throughout the region. Just as our graduates continue to make a difference in the businesses and industries which call north central Ohio home.

Let’s work together to provide a great environment not just for each other, but for all who look to NC State to provide educational leadership.

No matter what challenges we face, we will continue to look for the opportunity to serve each other and our students. We are making a difference. We are increasing the educational attainment of our community. We are changing lives. We are transforming this community.

Happy New Year,
