

3357:13-14-158 Curriculum to Follow to Evaluate Student Current Status (Catalog of Record)

(A) In the evaluation of student files, we will use the following guiding principle to evaluate student files for current status:

- (1) Students who have not been in attendance for 2 or more consecutive semesters (excluding summer) will follow the current year's curriculum.
- (2) Students who have been away from NCState for 1 semester (excluding summer) can be given the option of following any curriculum in place since their original matriculation, depending upon availability. However, the file will initially be checked for graduation based on the curriculum at the time of the original matriculation.
- (3) Appropriate substitutions will probably need to be made in either circumstance.

Effective: October 1, 2014
