

3357:13-16-522: Tuition Remission OSU-M (Shared Services)

Procedures for Credit Courses Taken at North Central State College

- (A) North Central State College would like to open the door to our OSU-M shared personnel to take advantage of courses, which might enhance their ability to serve both institutions. This service is available to those shared personnel on the same basis as NC State personnel and according to space availability. The course will be run only if there is adequate tuition to fund it, and beyond the paid enrollment if there is space available to whatever the maximum capacity of the course, we honor requests for remission of fees for our own employees and extend that benefit to cost-shared employees of OSU-M.
- (B) For credit courses taught by an outside provider, the student will pay the contracted amount. All other fees will be remitted. Employees and/or immediate family members in a credit course(s) are entitled to the same enrollment consideration as any other student of the College.
- (C) The Tuition Remission policy does not apply to non-credit courses offered through the Campus Recreation Center (CRC). There is a reduced rate available for employees of either institution through the facility.
- (D) OSU-M cost shared personnel will be required to bring identification to the Student Records Office when registering for non-credit courses.
