What is a review?

Our program review is a type of internal evaluation for academic, support and administrative groups.

What is the purpose of a review?

The primary purpose of a review is to foster improvement. The review process was designed to create a supportive climate for promoting continuous quality improvement. The review is intended to nurture innovation and viability. It will ensure the continuation of high quality programs and services at North Central State College. The review process of programs and non-instructional services support the College mission.

North Central State College exists for the citizens of its service region to attain the knowledge and skills to succeed in their chosen path of learning, work or enrichment, sufficient for the college to justify available resources.

However, the college must continuously adjust its menu of programs to fit local, regional, and state needs and requirements. Consequently, one must be aware that this review process may be used in administrative review that could lead to program change or even closure in rare circumstances.

The Institutional Service & Program Review Purpose and Charge

A review calendar was established in 2012 and is updated regularly and followed.

The Review Process was implemented to meet requirements established by the Ohio Board of Regents, but perhaps more importantly to help each area of the institution improve.

In 2013/14, President Diab, as part of a reorganization of the college's committee structure identified the following charge for this committee: "Evaluate progress of academic and student services programs or departments. Evaluate academic, support and administrative offices for mission congruence, fiscal stewardship, and interdepartmental integration and efficiency."

The Institutional Service & Program Review Committee (Program Review Committee)

ROLE

The Program Review Committee is convened by the College President and has the overall responsibility of initiating the review process and for providing necessary oversight, guidance and support to that process. The Committee maintains a calendar of reviews ensuring that all Programs and Non-instructional Services complete the review process within a 3year cycle. The Committee also establishes a schedule of reviews to be completed each academic year, establishing dates for a pre-review discussion with the program or non-instructional service, submittal of required reports and the Committee's response to the final report with recommendations to the submitters with a copy to his/her supervisor. The Program Review

Committee will be intentional about creating and maintaining a supportive climate for an attitude of continuous improvement to grow and flourish through the review process.
