

3357:13-14-265 Procedures for Unresolved “NR” (Not Reported) Grades

If a faculty member is unable to post their final grades by the designated deadline date due to a sudden serious illness, death, or other unforeseen situation, the Vice President for Learning or his/her designee will look at each course individually to determine each student's final grade. Every attempt will be made to award each student the grade the faculty member intended to award if authentic documentation becomes available (i.e. grade books maintained by the faculty member or other similar documentation). If documentation is not available, the Vice President for Learning will determine each student's final grade.
