The general recommendation from the board is continue drafting the document and forward it to the nomination committee for their review prior to consideration by the full board.

D. Updates/Other

Dr. Dorey Diab presented the OACC State Share of Instruction (SSI) funding chart that pointed out the various categories of consideration in establishing each institutions share
of state funding and showed the percentage of one-year change and five-year change in SSI funding relative to the system total. The data showed NC State “Above” the system totals for 1-year change in 15 comparisons and “Below” in 4 comparisons. NCState was “Above” the system totals for 5-year change in 13 comparisons and “Below” in 6 comparisons. Overall, the comparisons demonstrated that the College was in a very favorable position with regard to the state share of instruction funding. Still, the data showed the areas in which improvement is needed in certificates, degrees, and transfer.

Dr. Diab reported a recent visit to the campus from the Massachusetts Institute of Technology (MIT) to view our technology department and learn more about our development of relationships that make this area successful with regard to the future of the workforce.

Dr. Diab reported on the accolades of the College in receiving the Mansfield-Richland Area Chamber of Commerce/Richland Community Development Group Award for “Investing in the Future.” The College has also been named one of only 11 Achieving the Dream Leader Colleges of Distinction nationally.

Dr. Diab explained that he had previously alerted the Board about a resolution regarding a tuition waiver for the Bachelor of Science in Mechanical Engineering Technology. The waiver is not required when the adjusted tuition is for an amount that is more than the current tuition rate. The rate recommended for the pursuit of the NC State BSMET will be $200 per credit hour instead of the current $166.60 amount for an Associate degree. The additional amount of $33.40 will be assessed as an additional fee for each of the third and fourth year courses.
