

## Testing Information for College Credit Plus (CCP) Students

### Does the student need to take the Accuplacer placement test to take CCP courses at North Central State College?

Maybe. There are a couple of reasons that students would not have to take the Accuplacer placement test. Those reasons are:

- A student has already taken the Accuplacer and/or ACT and received the scores needed for CCP qualification and for the classes the student wants to take through NCSC
- The student meets GPA eligibility guidelines as set forth by the OAC Rule 3333-1-65.14. The ruling can be found [here](#).

If none of the above apply to the student, or if the student is taking a course that requires certain placement scores (see score requirements [here](#) for commonly requested courses), then the student will need to take the Accuplacer placement test or ACT.

### How does a student schedule a placement test with NCSC?

The student can call our Testing Center at 419-755-4736 to schedule a time to test on-campus. A student must have applied to the college before the test can be given. A link to the application can be found [here](#).

### How can I host a testing session at our high school?

If you are interested in becoming a Proctor and administering the Accuplacer to your students, you will need Proctor credentials. If you do not already have NCSC Accuplacer credentials, please fill out the request form [here](#). Once approved, you will get an email with your login information and Accuplacer training materials to complete the Accuplacer Proctor Certification test.

If you already are certified to proctor and you will be hosting a testing session, please contact our Testing Coordinator, Justin Beeman, at [jbeeman@ncstatecollege.edu](mailto:jbeeman@ncstatecollege.edu) with a list of: students names and dates of birth who plan on testing, your planned testing day and what sections of the test each student should be taking if different than Reading, WritePlacer and Math. Once this information is provided, Justin will provide you with the necessary vouchers needed for testing.

If you would like an NCSC representative to come to your school to assist you with testing, please contact one of the following below and we will do our best to assist you.

- Caree Bash, CCP Director: [cbash@ncstatecollege.edu](mailto:cbash@ncstatecollege.edu)
- Scott George, Academic Advisor: [sgeorge@ncstatecollege.edu](mailto:sgeorge@ncstatecollege.edu)
- Casey Randall, Academic Advisor: [crandall@ncstatecollege.edu](mailto:crandall@ncstatecollege.edu)

Prepare for ACCUPLACER and preview sample tests on the [Accuplacer Website](#). CCP Students will be offered the following test sections with NCSC: Next Generation Reading, WritePlacer and Advanced Algebra

### How long does the Accuplacer test take to complete?

If the student is taking all three sections (Reading, WritePlacer and Math) the test may last anywhere between 1.5-2 hours. Please note that the Reading and Math sections are not timed, however, the WritePlacer is timed for one hour.

### Need Help?

Please send any questions regarding testing to our Testing Coordinator, Justin Beeman, at [jbeeman@ncstatecollege.edu](mailto:jbeeman@ncstatecollege.edu) or 419-755-4736.
