Testing or Test Optional for CCP?

Is testing required to take part in CCP with NCSC?

This depends on two things: (1) [Your HS cGPA](#) and (2) [Which courses you wish to take](#). (See Table A)

- ✓ If your cGPA qualifies you for CCP eligibility, **and your desired CCP courses are *not* in Math or English**, (nor have required college Math or English placement), then it's likely that you won't need to test. Confirm w/ your advisor.

*12th grade CCP students may qualify to be placed directly into the college-level English Comp. or Math without testing. For this, provide CCP@ncstatecollege.edu with a HS transcript showing final grades for 11th and cGPA.

Table A – There are requirements at each segment of the CCP enrollment process.

Requirement	Criteria	Set By
CCP Program Eligibility: (Meet one)	1. 3.0 cumulative grade point average (cGPA); or 2. At least 1 qualifying score on at least 1 section of ACT or ACCUPLACER; or 3. 2.75-2.99 cGPA with approved course completion/grades fr transcript review	Ohio legislature
College Admission:	All admission requirements must be completed by the college deadlines. (Some colleges require test scores for admission, regardless of GPA. NCSC does not.)	Each college
Course Planning & Registration:	All prerequisites or placement requirements must be met. (Testing for course placement may be needed, independent of CCP program eligibility.)	Each college
