N. College Procedures/Policies:

North Central State College believes that every student is a valued and equal member of the community.* Every student brings different experiences to the College, and all are important in enriching academic life and developing greater understanding and appreciation of one another. Therefore, NC State College creates an inclusive culture in which students feel comfortable sharing their experiences.

Discrimination and prejudice have no place on the campus, and the College takes any complaint in this regard seriously. Students encountering aspects of the instruction that result in barriers to their sense of being included and respected should contact the instructor, assistant dean, or dean without fear of reprisal.

* *Inclusive of race, color, religion, gender, gender identity or expression, national origin (ancestry), military status (past, present or future), disability, age (40 years or older), status as a parent during pregnancy and immediately after the birth of a child, status as a parent of a young child, status as a foster parent, genetic information, or sexual orientation*

III. Grading and Testing Guidelines:

PLEASE NOTE:

Participation is essential for course success. In online classes, completing assignments is tangible evidence that students are participating.

You must complete at least one assignment within the first two weeks of the course to be counted as an attending, participating student.

Students who do not complete an assignment by Friday of the second week of the term will be withdrawn from the course for non-attendance.

Any work that is turned in to this instructor to be graded should be grammatically correct and free of spelling errors. Any work that cannot be understood because of poor grammar, run-on sentences, etc. will not be graded, and the student will receive a “0”. If you need assistance with your writing skills, contact our student success center for assistance.

You must abide by all due dates to receive full credit. All work must be your own unless you are authorized to work in groups.

If you have any questions, please email me at dkoepke@ncstatecollege.edu using your NC State email account.

For each chapter and topic discussed, there will be individual projects assigned (homework). These projects will be weighed from 5-100 points each. The projects are located under the “assignments” tab to the left of your screen.

Each week will have a separate link that will include the assignments, handouts, PowerPoints, and reading assignments. You will have work that is to be submitted as an assignment, and others submitted as a discussion. Students are required to respond to a classmate’s discussion posting for each discussion assignment.

These responses should exceed statements of agreement or complement and explain why you agree or disagree. The target for content is about 100 words. Responses will be weighted as 10 points each.

Responses are ONLY for discussion assignments. Responses: usually will consist of, do you agree with your classmates' answer? Do you disagree? Please explain why or why not. Do you have questions about their answers? Do you have helpful pieces of information to share with your classmate about the assignment? Etc. A resource or reference should be cited (not Wikipedia) to support your discussion.

Responses are meant to simulate the traditional classroom experience when the instructor asks students to respond to a question or comment about an answer another student offered.

Proofread your work for spelling and grammar before submission. Please use proper grammar for all communication, including emails. Student assistance for writing skills is available through the student success center.

If you have any questions, please email me using your NC State email account. Emails (not canvas inbox messages) come directly to my personal phone. I prefer that you do not use the inbox inside Canvas IF you want a question answered swiftly.

No private email accounts can be used. You may only use your MYNC state email account for communication with me.

IV. Examination Policy:

1. The reasons for which a student will be excused from taking an examination. _____
 - a. Hospitalization (with documented verification)
 - b. Death in the immediate family (with documented verification)
 - c. Personal illness or illness in immediate family - (doctor's excuse required).
2. All work, including assignments, exams, and discussions, are due by Midnight Sunday or the day listed. Your initial discussion post is due in the middle of the week, so classmates have time to respond. If a response is required, those will be due by 6 pm on Sundays, or the due date. You may work ahead on this course if you choose to. However, I do not grade ahead. Make sure you set your assignment screen on canvas as you have been advised so that you can view your work by the week (refer to your announcement page, email, and course module for directions). If you plan a vacation, have a hectic work schedule, etc. please prepare for that, so your work is turned in on time. The penalty for late submission is one (1) letter grade; after two weeks, the reduction is two (2). Punctuality is a professional expectation and respectful of your classmates.

V. Class Attendance and Homework Make-Up Policy:

There **will not** be any points assigned for attending this class because it is an online course. It is the student's responsibility to check the due dates of each assignment and complete it before their due date. Assignments are due by Midnight on the due date, and all responses to classmates are due by 6pm on of the due date. To the best of the instructor's ability, grades will be maintained **weekly or bi-weekly. This means that if your work is due on Monday, I will do my best to have it graded by the following Monday.**

The class's total points will vary, based upon exam weights and other variables such as the number of assignments, discussion, research, etc.

VI. Classroom

Expectations:

Remember, the class sessions simulate meetings and discussion among co-workers in the workplace. To respect the rights of all, please:

- Show respect to your classmates by using positive feedback within the discussion rooms and email. A debate is expected and encouraged as it aids in the learning and exploration process. Please approach debate, questions, and answers in communication, with a spirit of congeniality.
- Negative feedback is wrong. You will receive a warning for the first time. Further use of negative feedback will result in a “0” grade for that assignment. If there is negative feedback on a third occasion, you may be removed from the class.
- Please practice ‘netiquette’ by treating classmates with dignity and respect in all manners of communication. We are working together for a common purpose in the classroom. In the future, you will work with others in the workplace for a shared mission.

Helpful Information: Please read ahead for the assignments that will be due for this course to get a head start! Click on the Assignment Tab to the left of your screen to ensure you complete all the due assignments. (Make sure you click the tab in the upper right corner of your screen to set your monitor to the view of seeing your work listed by each week as this will help you in keeping track of what is due and when and also assists you if you are going to work ahead.)
